

## Environmental Responsibility

The service we provide makes a significant contribution to improving indoor living standards, conservation of energy and we encourage the use of products that are ecologically friendly.

As a responsible company, Newards will conduct its business in a manner, which minimises the impact of its activities on the environment.

Environmental considerations are integrated throughout all aspects of our business from supplier through each process, to carpet and finally to the customers installation.

To achieve the objectives Newards will

- Comply with all applicable legal regulations in any location
- Environmental auditing to monitor progress and ensure compliance
- Continue to invest in environmental improvements
- Continuously improve environmental performance
- Continue to recommend carpets with positive environmental properties, manufactured by processes that have the least environmental impact
- Minimise energy consumption
- Minimise waste generation from all sources and re-cycle materials
- Dispose of all waste by legal, safe and secure methods
- Continue to develop an open and effective relationship with regulatory authorities and the local community
- Control and minimise activities that impact upon the local community
- Ensure appropriate employee training and communication
